About Zocalo:

Zocalo Community Development is an award-winning, Denver-based development and construction services company focused on creating sustainable communities that deliver for investors and neighborhoods alike. Locally produced and contextually sensitive are descriptors of Zocalo's commitment to community development. Zocalo seeks to reduce the impact residential and mixed-use buildings have on the earth and the environment by substantially reducing greenhouse gases generated both by the building itself and by the means and patterns of resident commuting. Zocalo is ceaseless in its commitment to improving the design, sustainability, construction, development and marketing of its projects. The product of this complete integration is the development of real estate projects of greater enduring quality and sustainability.

The word Zocalo dates back to the Aztec culture, meaning a community center or plaza common to towns and cities throughout Latin America. For more information, visit <http://www.zocalodevelopment.com>.
